

Prefer digital to paperback? If so, read on for details of our multi-user e-licence and individual e-Pocketbooks.

A Licence to Skill

Tap into the benefits of a digital Pocketbooks library.

If you'd like to share e-Pocketbooks among several different users – all the staff in your school or college, for instance – it's now possible to upload Teachers' Pocketbooks to your VLE/Intranet, giving instant access to a fantastic CPD resource.

Our **multi-user licence** offers a cost effective way of training and of developing professional knowledge and skills. An annual subscription buys you access to the full library of Teachers' Pocketbooks – currently 38 titles (over 4,500 pages of high quality professional development materials) – for as many users as you'd like.

The subscription price is determined by number of users and we're told it compares favourably – in cost and content – with school training days or sending staff on courses. Each year when you renew your subscription we update your library with any new editions and new titles published in the previous 12 months. We also give licensees 25% discount on paperback Pocketbooks. Combining e-books with physical books makes for a versatile and comprehensive package of online and offline development materials.

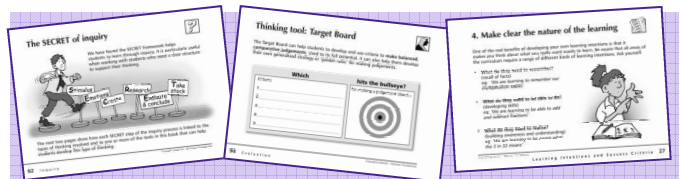

To get a quote for an annual multi-user licence or to find out more, call us on 01962 735573 or email sales@pocketbook.co.uk telling us how many people you envisage using the resource and we'll get back to you with a price and more information.

Individual e-Books

Professional development at a screen near you.

If your preference is for an e-book or two – or a set of e-books – for yourself, you could be at your screen reading any of our 38 titles within the hour. We've just launched our e-book website from where you can browse, buy and then download Pocketbooks to your PC, laptop and/or Mac.

The cartoons and diagrams make a BIG impact when enlarged on screen.

Viewed on screen, the visually attractive books look particularly impressive. At £6.96 per book you also save over £1 compared with the paperback version – and no postage to pay either!

You can download each e-book up to three times for your own personal use.

As a bonus we've enhanced (at no extra cost to you) individual e-books with colour and links. So if you buy any of the following e-Pocketbooks you will be one of our first customers to view the new colour versions: *Behaviour Management, Differentiation, EAL, Learning & the Brain, Outstanding Lessons, Assessment & Learning, Asperger Syndrome, Learning to Learn, Creative Teaching.*

To buy e-Pocketbooks visit our website: www.teacherspocketbooks.co.uk. Click E-pocketbooks on the orange menu bar and land on a page describing all our digital products. A few lines down is a 'click here' instruction that takes you to our e-book catalogue. You'll find details of how to order and download your books at the top of that page.

We think you'll enjoy your own private screening.
